Patient Information

Patient ID: auth0|6797fdb7196a218fee38f5a1

Blood Type: AB+

Weight: 76 kg

Height: 186 cm

Visit Details

Date: 2024-12-12 00:00:00

Doctor: auth0|67902deee3e34f9f52b9dd15

Visit Type: Regular

Reason: 3ndy wa2t Fady

Facility: Unknown Facility

Diagnosis

No diagnosis recorded

Medications

No medications prescribed

Vitals

Heart Rate: N/A bpm

Blood Pressure: N/A

Temperature: N/A °C

Oxygen Saturation: N/A%

Respiratory Rate: N/A breaths/min

BMI: N/A

AI Recommendations

Based on the provided patient history and latest visit details, here are my findings and recommendations: 1. Patient Identification: - Patient ID: auth0|6797fdb7196a218fee38f5a1. - Blood Type: AB+. - Weight: 76kg. - Height: 186cm. 2. Medical Conditions: The patient has been diagnosed with hypertension twice, both diagnosed on 2024-12-19 00:00:00, with a severity of moderate and active status. The notes mention consistently elevated blood pressure. 3. Allergies: The patient has a recorded allergy to peanuts, classified as a food allergy. The reaction noted is anaphylaxis, with a severity level of life-threatening. This allergy was diagnosed by auth0|67902deee3e34f9f52b9dd15 on 2015-04-10 00:00:00. 4. Medications: The patient is currently taking Panadol 90mcg as needed via inhaler and Albuterol 90mcg as needed via inhaler. Both medications were prescribed by auth0|67902deee3e34f9f52b9dd15 and have a start date of 2018-03-

12 00:00:00. 5. Surgeries: The patient has a recorded kidney biopsy scheduled to be performed on 2021-08-
